

EDUCATION -----

St. Robert Catholic High School

International Baccalaureate Diploma & OSSD

Thornhill, ON

Sept 2023 – May 2027

PROJECTS -----

Chaos Roll

Jul 2026

- Built a real-time wave-survival game in React and TypeScript where Gemini dynamically generated abilities, enemy designs, and zombie waves based on live match state.
- Won first place at Hack the Valley Hack Day and earned direct qualification for Hack the Valley.

Vera

Jul 2025 – Feb 2026

- Built and deployed a free cross-platform physics education platform using Flutter and Firebase, providing structured high-school physics lessons for students at St. Robert.
- Collaborated with the physics department head to create accurate, curriculum-aligned lessons.

ACHIEVEMENTS-----

OAPT - 17th in Ontario

May 2026

CEMC Euclid - Distinction, Score of 79

Apr 2026

5 on AP Calculus BC, AP Physics 1, AP Chemistry, and AP Computer Science A

May 2025– May 2026

CCC Senior - Distinction

Feb 2026

CEMC Canadian Senior Mathematics Contest (CSMC) - Distinction, Score of 44

Nov 2025

CaYPT - Silver Medalist, 3rd place in Canada

Mar 2025

EXPERIENCE -----

NTU-60 Skeleton-Based Action Recognition Research

Mar 2026 – Present

- Trained and evaluated deep-learning models to recognize human actions from skeleton-motion data for Professor Lei Gao and Kai Liu from Wilfrid Laurier University.
- Compared multiple graph-based architectures on the NTU RGB+D 60 dataset, tested model-fusion methods and wrote reports analyzing why weaker models reduced ensemble accuracy.

Spirit of Math Assistant Teacher

Sep 2023 – Present

- Led one-on-one sessions focusing on problem-solving strategies for students in Grades 8–10

Ski Lakeridge Ski Instructor

Jan 2025 – Present

- Level 2 CSIA Ski Instructor and Level 1 CASI Snowboard Instructor
- Taught skiing techniques to individuals ages 4–50 across varying skill levels.

ACTIVITIES-----

St. Robert Physics Club Activity Coordinator

Sep 2025 – Present

- Led physics lessons for 30+ students, designing and demonstrating experiments, and mentored students for physics competitions
- Incoming 2026–2027 school year president

Waterloo Quantum School for Young Students

Jul 2026 – Aug 2026

- Studying quantum superposition, entanglement, computing, and cryptography.
- Participating in expert lectures, problem-solving sessions, and discussions with quantum researchers.

St. Robert La Silhouette Activity Coordinator

Jan 2025 – Present

- Designed lesson plans for French Article writing club; incoming 2026–2027 school year vice-president

St. Robert STEAM ICAC Trainer

Oct 2025 – May 2026

- Trained students in problem-solving and innovation for the Ontario STEAM ICAC Competition

SKILLS-----

Languages: Python, Java, C++, Dart, TypeScript, JavaScript

Frameworks/Tools: CSS, Flutter, Firebase, React, React Native, Git

Concepts: Data structures, OOP, algorithms
